

FGV PL7D

Get Solid...
Rock Solid

FGV
DEVELOPMENT

FGV's PL7D is rock-solid, where it is most important:

- A new high-precision carrier connects sensor, mount and base
- PL-Mount accepts all professional Cine Film Lenses
- Sensor size perfectly matches the S-35 3-perf film format
- 24, 25 and 30 fps progressive @ 1920x1080
50 and 60 fps progressive @ 1280x720
- Sensor with 18 Megapixel resolution effective
- 3" Live-View & On-Board Recording
